Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-20 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 11-20 of copending Application No. 10/076,736 (as characterized by US 2002/0192118).

Although the conflicting claims are not identical, they are not patentably distinct from each other because both are directed to microreactors of identical composition and size.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6,8 and 10-20 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Srinivasan et al.

See the appropriate paragraph of the 9/14/04 Office action.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 7 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Srinivasan et al.

See the appropriate paragraph of the 9/14/04 Office action.

Response to Arguments

Applicant's arguments filed 3/14/05 have been fully considered but they are not persuasive.

Applicant's state Srinivasan et al. fails to teach "at least two different microreaction channels". However, Applicant's correctly characterize Srinivasan et al. in the first full paragraph on page 3 of 3/14/05 response as teaches teaching 4 or more different analysis channels. The Office has read "different" as meaning "separate or distinct". The Office maintains Srinivasan et al. has been properly read on the instant claims as teaching at least two different (e.g. separate or distinct) microreactor channels.

Applicant's traverse the 35 USC 103 rejection over Srinivasan et al. because a prima facie case of obviousness has not been made. The Office has defended the position of record above and maintains the 35 USC 102 and 103 rejections of record are proper.

Applicants traverse the Obviousness Type Double patenting rejections on the basis the 10/076,736 fails to teach "... at least two different microreactor channels...". Co-pending claim 14 is directed to 10-100 parallel microreactors which have been properly read on the instant claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
